Please Note: For saved configurations and pre-orders (placed without quota), the pricing and production month shown are indicative. Pricing is only confirmed for orders placed with quota.

Configuration for vehicle: Black Badge Cullinan

Order Number: H2-4410773

Fuel Efficiency

NEDC: CO2 emission: 343 g/km ; Fuel consumption: 18.7 mpg / 15.1 l/100km [†] WLTP: CO2 emission: 377-370 g/km ; Fuel consumption: 17.0-17.3 mpg / 16.6-16.3 l/100km [#] [1]

https://www.rolls-roycemotorcars.com/content/dam/rrmc/marketUK/common/brochures/eu-tyre-information/cullinan/EU_Tyre_Information_Cullinan.pdf

[1] Official data on power consumption and electric range is determined in accordance with the mandatory measurement procedure and is compliant with Regulation (EU) 715/2007 valid at the time of type approval. The figures shown consider optional equipment and the different size of wheels and tyres available on the selected model. Changes of the configuration can lead to changes of the values. For vehicles that have been type-tested after January 1st, 2021, the official information no longer exists according to the NEDC, but only according to the WLTP.

Values are based on the new WLTP measurement procedure. Only compare power consumption and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. The fuel efficiency label and VED banding shown is based on the current UK classification for new vehicle registrations (effective April 2020). For emission data, labelling and guidelines relating to your local market please contact your nearest sales outlet or from the relevant government authority in your region.

Further information on official energy and fuel consumption and the official specific CO₂ emissions of new passenger cars can be found in the "Guide to Fuel Consumption, CO₂ Emissions and Electricity Consumption of New Passenger Cars", which is available at all outlets free of charge and at <http://carfueldata.direct.gov.uk/in> the United Kingdom, <http://www.dat.de/angebote/verlagsprodukte/leitfaden-kraftstoffverbrauch.html> in Germany or your local government authority.
